

PATRYK PIĘTA

Technology for industry 4.0 student

✉ emzet959@gmail.com ☎ 530 229 233 📍 Kraków, Poland

🎓 EDUCATION

Technology for Industry 4.0

AGH University of Science and Technology

10/2023 – Present | Kraków

Technology for industry 4.0

Selected Courses

IBM Data Warehouse Engineer Professional Certificate

🧠 SKILLS

Core & Data Engineering

Python, SQL, NoSQL (MongoDB/PostgreSQL), ETL Pipelines, Apache Spark, Airflow, Kafka.

Cloud & Tools

Git, GitHub Actions, Linux, Docker

Industry/IIoT

Matlab/Simulink, Digital Twin, SolidWorks

BI & Tools

Power BI, Advanced Excel, Git

Effective work optimalization with generative AI

Driving license category B

Video editing

📖 COURSES

IBM Data Engineering Professional Certificate

Coursera, IBM

04/2025 – 03/2026

Completed a comprehensive program covering the full data lifecycle: from Linux shell and Python to Big Data processing (Spark/Hadoop) and Machine Learning.

Adobe Content Creator

Coursera, Adobe

Machine Learning Onramp

MathWorks

SEP Electrical Qualifications

Stowarzyszenie Elektryków Polskich

🎮 INTERESTS

- Running, Marvel Cinematic Universe, Video editing, New technologies

👤 PROFILE

Technology for Industry 4.0 student at AGH University bridging the gap between data engineering and business solutions. Experienced in building robust data pipelines (Python, SQL, Apache Spark) and web applications featuring complex document workflows and bulk data processing. Eager to leverage strong analytical skills, proactive attitude, and hands-on database knowledge to support real software development projects

💼 WORK EXPERIENCE

PGE Polish Energy Group

Intern

07/2026 – Present | Kraków

- Developed and maintained web applications and backend services for processing historical tender data.
- Implemented automated data workflows, document conversion, and bulk data uploading (ETL processes) using Python and SQL.
- Collaborated closely on data modeling and ensuring data reliability for business users.

Schneider Electric

Maintenance Intern

07/2025 – 09/2025 | Bukowno

- KPI Analysis: Participated in daily SIM (Short Interval Management) meetings to monitor production efficiency.
- Asset Management: Conducted a comprehensive inventory of spare parts to ensure maintenance continuity.
- Safety & Compliance: Updated LOTO (Lockout-Tagout) procedures and safety documentation.

VelvetCare

Maintenance intern

07/2024 – 09/2024 | Klucze

Assisted in technical oversight of production lines and supported mechanical repairs.

Tefal

Brand Promoter

03/2026 – 05/2026 | Cracow

- Providing technical consultancy and conducting live demonstrations for premium home appliances

🏠 PROJECTS & ACTIVITIES

11/2024 – Present | Cracow

- KN Sensor Science Club: Developing a Digital Twin (mathematical modeling & virtual representation) for an AGV.
- Cranes Control System: Working on intelligent control algorithms for industrial crane models.
- Web Development: Designing responsive portfolio templates for photographers.
